

Carr-Bilt concession stands and ticket booths are smart investments for your sports facility or complex. Made of precast concrete, they will last for many seasons with built in resistance to Mother Nature and vandals. Our buildings require little maintenance, reducing your ownership cost.

Carr-Bilt buildings arrive at your location in one piece, are offloaded and ready for immediate use. Buildings can be customized to your specific needs including roll up counter windows, water fountains, sinks, electrical packages among other options. At Carr we have the experience to help you design your precast building solution to meet local health codes and your organization's needs.
