

Precast Concrete Products for the Rail Industry

Quality...Consistency...Value...those are just a few of the words that describe Carr Concrete precast concrete products. Since 1974, when we began producing precast concrete burial vaults, Carr Concrete's goal has been to provide the best quality, service and delivery in the precast business. We now manufacture over 200 standard products that are utilized in seven different market segments.

In addition to our standard product line, we have the ability to manufacture a variety of custom products.

CARR Concrete
a division of CXT, Inc.
